Subject: Chromebook 1-to-1 Implementation Update

Date: Tuesday, December 13, 2016

Beginning in October, we began the first phase of the Chromebook 1-to-1 Implementation. In this program, made possible by the recent bond referendum, we have deployed Chromebooks to each student at our middle schools and at Lancaster High School. As you know, A.R. Rucker Middle School and South Middle School had previously piloted the 1-to-1 Initiative.

This school year, the three additional middle schools and Lancaster High School have implemented the 1-to-1 Initiative with a Chromebook for each student. Below is detailed information about the scope of this project.

<u>School</u>	<u>Devices Issued</u>	<u>Date Completed</u>
Andrew Jackson Middle School	510 Chromebooks	October 14
Buford Middle School	405 Chromebooks	October 11
Indian Land Middle School	937 Chromebooks	October 4
Lancaster High School	1,315 Chromebooks	November 18
