<b>Enrollment Update-</b> LB	Dr. Phipps recognized Mr. Miller who presented to the board the updated enrollment study findings and data. **Impact Fees, Additions to Schools, Land purchase, Capital Improvement plan/5 year plan -**

Dr. Phipps recognized Ms. White who updated the board on the continued pursuit of funding for land purchases for additional schools due to growth in the county as well as additions to existing schools where necessary as space allows. Ms. White explained to the board the costs and stated that after speaking to advisors of the district, it might be beneficial to enact a bond referendum to fund the needed improvements, additions, and new schools throughout the district.

**Board Questions-**

Due to time limitations, the board discussed and agreed to meet at another date regarding the majority of the board questions set forth in the planning agenda. Mr. Small presented his question regarding security searches and metal detectors at sports games. Mr. Small spoke about his concern that only Lancaster High School has metal detectors and searches at sports games and inquired to Mr. Vaughn about the reasoning for this. Mr. Vaughn explained that these security measures are not required but are at the discretion of each school administration. Mr. Vaughn also informed the board that some schools have difficulty getting enough help for sports games to be able to provide these security measures. Mr. Stroble suggested to the board that the regular monthly board meetings should be held once a quarter at Buford, Andrew Jackson, and Indian Land. Each board member gave their views on this suggestion and Ms. Dabney stated that this would be added to the February regular board meeting agenda to be voted on.

**2022 School Board Recognition Month -**

The Public Information Office gathered artwork from students, with assistance from the district's art teachers, throughout the schools to present to the board for School Board Recognition Month. The artwork was displayed during the meeting.
