

Technical services

4,600 networked computers

available to students

Software to help students build academic skills

- ✓ FAST ForWord is available in all our elementary schools and in two of our middle schools to help students build reading skills
- ✓ PLATO is used in middle and high schools and SUCCESS MAKER is used in elementary schools to build language/ arts, math and science skills
- ✓ SAT Prep applications used in our high schools

World Wide Web

Access to a wide range of information in the form of text, graphics, photographs, video, and sound

Teacher homepages

Teachers homepages through school sites provide everything from who teachers are to homework assignments

Newsgroups/discussion groups

Similar to mail-lists, these groups provide access to selected news-groups on subjects related to class projects

Internet relay discussion

“Real-time” discussions are possible for defined educational activities, with access under the direct supervision of the teacher, media specialist or computer facilitator
