Our focus

Our department is committed to supporting the educational vision, goals and mission of our district.We strive to provide maximum up-time and efficiency, by developing and maintaining a strategically-minded plan for the use, implementation and maintenance of district technology assets and resources.

Our functions

- Our <u>Network Technicians</u> are responsible for implementing, maintaining and repairing over 20,000 devies and more than 100 software applications.
- Our <u>Network Administrator</u> is responsible for leading device deployments, maintaining key systems, databases and backups; while also providing leadership and guidance to our Network Technicians.
- Our <u>SIS Coordinator</u> maintains all aspects of Powerschool, including training new users, performing upgrades, submitting all S.C. Department of Education data requests, diagnosing Powerschool errors and assisting SIS users.
- Our <u>Network Engineer</u> is responsible for maintaining our network infrastructure, Google-GSuite and Content Filter, while also providing leadership and guidance to our Network Technicians.

Our department strengths

- **Committed work ethic** – Our department understands that technology is critical to the eudcation of our students and we're dedicated to delivering the highest level of support possible. Our intent is on ensuring that our district technology is available and performing at its best for our students, teachers and staff.

LANCASTER COUNTY SCHOOL DISTRICT *Putting our children first*

- **Problem solving** – Our department consists of an experienced group of problem solvers that are not only great at finding solutions for current issues, but also proactive in looking for ways to improve efficiencies and thwart potential problems.

- **Knowledgeable staff** – Our staff members possess an extensive array of knowledge, experience and skill in relation to information technology. This knowledge enables our department to meet our district's technology needs efficiently and effectively.
