Our facilities

Date main building was built: 1954 **Date of renovations:** 1999
Square feet: 28,074 **Number of computers:** 34 **Number of classrooms:** 26

Our school programs

- **Four-Year-Old Kindergarten** – Our four-year-old Kindergarten program classrooms operate on a full-day schedule. The program follows the HighScope curriculum and is designed to meet South Carolina’s Early Learning Standards through inquiry. Before the child begins the program, he or she is tested with the readiness screening program called Dial 4. Acceptance into the program is based on age-eligible children qualifying for free or reduced-price lunch or Medicaid. Children with developmental delays documented through state-approved screening assessments or children with medically documented disabilities who do not already qualify for special need services are also considered for enrollment.
- **The Lancaster Early Head Start Program** – The Lancaster Early Head Start Program offers comprehensive child development services to families with children birth to age three. There are two components offered, a center-based component and a home-based component. The center-based program is housed within three separate classrooms, serving a total of 48 children. There is one teacher for every four students. The home-based component serves 24 additional families, eight of whom include prenatal mothers. Both components are designed to offer comprehensive services to the families, including training in positive child discipline, early child care and development, preventive health services, child

and family mental health issues, children’s dental care needs, and prenatal issues. Quality childcare is provided for the center-based children.

- **Head Start Program** – The Head Start program is also housed at Southside Early Childhood Center. It is a NAEYC Accredited Program that provides comprehensive educational, health, nutritional, social services to economically disadvantaged children and their families. This program serves approximately 94 three- and four-year-olds. It is operated by Carolina Community Action.
- **Lancaster County First Steps** – First Steps partners with LCSD and Southside Early Childhood Center to provide child development services to families with children birth to age three. This center-based program is housed in three separate classrooms, serving a total of 20 children. Instruction is provided using Creative Curriculum, which helps develop children socially, intellectually, physically and mentally. This program also provides a comprehensive health component that includes physical, medical, dental and nutritional services.

Our co-curriculum, clubs, athletics

The core focus of our school is to provide a learning environment that fosters all areas of child development. A research-based preschool curriculum is used that focuses on critical child development skills, approaches to learning, language and literacy, mathematics, social/emotional development and physical health and development. Our curriculum is aligned with the South Carolina Early Learning Curriculum Standards.

Our parents/parent support programs

Parent involvement is a vital part of our program. Parents volunteer in the classroom, attend field trips and participate in fundraisers. Parents also serve on the PTA and Policy Council.

Our school strengths

- 1) Provides a high-quality early childhood education
- 2) Promotes a positive parent/teacher interaction – teachers complete home visits twice a year and parents are required to attend two conferences at school
- 3) Health and developmental screenings and assessments of students
- 4) Safe and nurturing learning environment
- 5) Concrete and hands-on learning experience

Our improvement/growth areas

- 1) Receive accreditations through the National Association for the Education of Young Children (NAEYC)
- 2) Integrate physical education, music, technology and art instruction into the curricula
- 3) Enhance the media center to appeal to visual, auditory and kinesthetic learners
