We Offer:

- Balanced Literacy Instructional Model
- EnVision Math
- Virtual Parenting Class (Full Service Grant)
- Small Group Instruction
- iPads
- Chromebooks
- Founders at CES
- Student Council

About Our School:

Clinton Elementary is a Title I school nestled in the center of downtown Lancaster, South Carolina. Clinton's staff is committed to excellence by preparing children to become lifelong learners, in order to be successful in a challenging world. Due to budget constraints, CES staff is required to write grants to enhance instruction in their classroom. Our students have access to technology daily through the use of iPads and Chromebooks.

CES is working diligently to improve academics by focusing on math concepts and balanced literacy. Our teachers receive ongoing professional development and collaborate weekly with our literacy coaches to plan whole group and small group instruction. One of our main goals for 2021-2022 school year will be to create common assessments for 5k through 5th Grade.

Covid-19 has restricted many activities listed below. These initiatives we will continue 2021-2022 school year.

We are also working to educate the whole child by implementing the Cub Crew Workers Program and Student Council. This program allows students to gain real world work experience such as applying for jobs, interviewing, working and receiving paychecks for their jobs. Jobs include Safety Patrols, Reading Buddies, Landscaping, Cub Crew Helpers, Bankers and Flag Patrol. Students are enjoying this real world experience. Our Student Council held elections and CES students are learning about our government and the election process. They also held a bottle water donation campaign to help support the counties during the States recent flooding.

To promote student success CES has implemented the Founders Fellows program. This program allows students to be recognized for good character traits that they display in and outside the classroom. Students are also recognized for academic achievement through our all "A's" luncheons and A/B Honor roll prizes.

CES believes that community involvement is a vital component to the success of the school. The school hosted an Open House for parents, Grandparents celebration, Veterans Day performance, where the chorus performed, McDonald's Family Night, and beautification projects sponsored by the local Home Depot in conjunction with the Full Service Grant.

CES is truly a school where Cubs have the opportunity to grow academically, socially, and behaviorally. All of these efforts are helping CES to achieve academic excellence for all students. Cub Pride!
